Office Action Summary	Application No. 10/696,959	Applicant(s) HODGES ET AL.	
	Examiner Mina Haghighatian	Art Unit 1616	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 27 July 2007.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Receipt is acknowledged of the Amendments, remarks and Terminal Disclaimers filed on 07/27/07. Claims 1 and 22 and claims 10 and 31 have been cancelled. No new claims have been added. Accordingly claims **1-7, 11-30 and 32-39** remain pending.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims **1-7, 11-30 and 32-39** are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims of U.S. Patent Nos. 6,797,259 and 6,814,955. Although the conflicting claims are not identical, they are not patentably distinct from each other because the examined claims are either anticipated by, or would have been obvious over, the reference claims. Here claims **1-7,**

Art Unit: 1616

11-30 and 32-39 are generic to all that is recited in claims of cited U.S. Patents. That is, claims of cited U.S. Patents fall entirely within the scope of claims **1-7, 11-30 and 32-39**, or in other words, claims **1-7, 11-30 and 32-39** are anticipated by claims of cited U.S. Patents. Specifically, the methods of preparing compositions of the instant claims are the same as or obvious over the compositions and methods of the cited U.S. Patents.

Claims **1-7, 11-30 and 32-39** are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims of U.S. Patent Nos. and U.S. copending Applications listed below. The said patents and copending Applications have been found to claim substantially similar subject matter per the obviousness-type double patenting rejections made above in the instant office action, especially with regards to compositions and methods of making drug condensation aerosols. Furthermore, it appears that the invention is the condensate compositions and the method of making them. Thus it is considered that the substitution of various active agents does not alter the scope of the said claims.

---- It is noted that Applicants have filed a Terminal Disclaimer over some of the above listed patents. However, the said Terminal Disclaimer has not been approved yet. Upon approval the rejection against the said patents will be withdrawn.

Response to Arguments

Applicant's arguments, filed 07/27/07, with respect to the rejection(s) of claim(s) 1-7 and 10-39 under Double Patenting have been fully considered, however, upon further consideration, a new ground(s) of rejection is made in view of other U.S. Patents and U.S. co-pending Applications.
